

ACE WINDOWS NE

PERSONAL PROTECTIVE EQUIPMENT AND CLOTHING (PPE)

We recognise that the use of PPE as a risk control measure is a last resort as it protects only the user and is at risk of not being worn correctly. Ace Windows NE employees are supplied, free of charge, with any PPE identified as a required risk control measure within risk assessments. We ensure that it is suitable, i.e. it reduces the identified risk as intended, it is CE marked, is a good fit, is suitable for the individual using it, is compatible with other PPE, that suitable storage is provided to prevent damage and that instructions are provided in its' correct inspection, use, cleaning, storage and maintenance.

Employees who are required to use or wear PPE are provided with training on the circumstances in which it is used, the hazards against it will give protection, the importance of correct use, how to wear it to obtain the right protection and any limitations of the equipment. The training also includes how to inspect, clean, maintain and store the equipment and how to report defects and obtain replacements.

PPE is checked by the individual before use and replacements are available on request in between inspections.
