

ACE WINDOWS NE

PROTECTING THE PUBLIC

Ace Windows is a window fitting company and our activities involved in working in domestic and commercial properties. We therefore take account of risks to the public within our risk assessments and construction phase plans including the risks to children, the elderly and people with disabilities.

We make every effort to engage with customers /client at the planning stages in order to identify hazards which may affect their premise users or passers-by and to agree risk control measures.

Where our work is likely to obstruct fire exits we also liaise with relevant managers and project managers to ensure that they are aware of this and can make alternative arrangements or schedule the work out of hours. .

During the work, when the building is in use, we use; barriers, signage and shielding as control measures – Ace Windows NE are aware of the need to be alert to building users who may have special needs or be too young to comprehend warning signs and instructions.

We only employ experienced and trained staff whom we have inducted in our health and safety procedures and quality requirements.

We only work in a structured and tidy manner

Ace Windows NE are committed to ensuring a high quality of design and workmanship which results in an end product or installation meeting essential safety requirements and being appropriately tested and inspected prior to being placed into service.
