

Risk assessment form

Area location Ace Windows NE (Production Area)		Date 16/5/2017
Identify the hazard	Who can be harmed? ✓ x	Rank
Hand Tools Don Carlos hand tools	Employees	✓ Low
	Client staff	○
	Contractors	○
	Visitors	○
	General public	○
	Other(s)	○
Identify the consequences in detail (that is, what type of harm or loss can occur)		
Lacerations / cuts to hand, arms and body. Lack of training can lead to unsafe practices resulting in injuries		
List the existing control measures		
Two operatives only use the tool and are experienced in its use.		
The operatives 'other' hand should always be behind the cutting blade at all times (most cuts are to the fingertips of the left hand, and happen on the 'follow through')		
The tool is "fit for purpose" and complies to PUWER Regs.		
Operatives never cut towards their body / hands		
PPE; gloves worn		
Actions required (list any additional actions that may be required to further reduce risks)		
Ensure safe working practices continue		
Risk assessment carried out by R Pyne		17/5/2017
Overall risk presented (after control measures are implemented)		8
