

We are a well-established company trading throughout the north east of England.

We manufacture and install uPVC windows and external doors, as well as supplying and installing composite doors, timber and aluminium doors, windows and shop fronts to trade and domestic clients. Not only do we pride ourselves on the quality of our workmanship and customer service, but we offer a full end-to-end service including obtaining Planning Permission and Building Regulations approvals, as well as liaison with residents – whether owners or tenants of your properties.

We are registered with CERTASS, as a result of which we can self-certify Building Regulations compliance, and offer a 10 year insurance backed guarantee of materials and workmanship.

To whom it may concern,

We as a company would like to personally recommend ACE Windows as a service, as they are constantly keeping in good time and communication with ourselves, confirming appointments and arranging to collect keys on time, and always abiding by the health and safety standards in their work.

All work is finished as instructed, and is completed consistently to a high standard, keeping the quality of work high whilst also being quick and efficient.

If you have any other questions regarding ACE Window's performance, please feel free to get in touch on 01388 747 444.

Regards

To whom it may concern,

Within our management company, we manage over 400 properties and use Ace Windows for all our doors and windows. I am the Maintenance Manager within the company and work very closely with all contractors. I have done this job for over 10 years and have never come across a more friendly and efficient company.

I have worked with Ace Windows for 2 years now and they completed everything from a single glazed unit to a full house. I find Ace to be very competitive in pricing compared to other companies we have used in the past, but most importantly the efficiency and reliability is key to our company. They have very good communication between our clients and our office.

I would highly recommend to anyone Ace Windows for Price, Efficiency and Friendliness.

Julie Wilkinson

EQUAL OPPORTUNITIES & DIVERSITY POLICY STATEMENT

Introduction to Policy Statement

This policy has evolved in line with legislation and puts into effect and various Acts of Parliament including the Equality Act October 2010. It also places emphasis on the importance of valuing diversity writing the organisational culture. The policy will be subject to regular formal review; however, the policy remains very much a working document and will evolve continually to ensure it meets legislative requirements.

Valuing Diversity is about everyone. Valuing and managing diversity effectively embraces equal opportunities in its widest sense and goes far beyond simple compliance with legislation. It involves developing an organisational culture and working practices that welcome and respect the differences between individuals, both visible (e.g. ethnicity, gender etc) and non-visible (e.g. age, nationality, background, sexuality, education, experience etc.), but utilises these differences to the benefit of the individual and the organisation as a whole. Essentially, it is good business practice.

Ace Windows NE recognises the benefits that valuing diversity can bring and is committed to creating and developing an inclusive environment in which people of different backgrounds with different experiences and different views all feel valued for the positive contribution that they can make to the organisation.

HEALTH AND SAFETY POLICY

Ace Windows have a firm belief that, by having a sound attitude to health and safety requirements, not only will the well-being of the employees be assured, but also the company will be ultimately more efficient and thus more profitable.

The company policy is, so far as is reasonably practicable to:

- Ensure that sufficient resources (e.g. people, time, money and facilities) are made available to ensure adequate control of the health and safety risks arising from our work activities.
- Ensure consultation with our employees on matters affecting their health and safety.
- Ensure the provision and maintenance of safe vehicles, plant and work equipment (WE).
- Ensure safe handling and use of substances.
- Ensure all employees are competent to do their tasks and to give them adequate information, instruction, supervision and training.
- Ensure that all members of the public are protected from being harmed or injured
- Ensure the prevention of accidents and cases of work-related ill health.
- Ensure maintenance of safe and healthy working conditions.
- Ensure access to competent health and safety advice.
- Ensure review and revision of this policy as necessary and at least every year.

It is the company's firm belief that, by having a sound attitude to health and safety requirements, not only will the well-being of the employees be assured, but also the company will be ultimately more efficient and thus more profitable.

Signed..... Abe Rabin (Director) Date.....

ACE WINDOWS NE

ENVIRONMENTALLY SUSTAINABLE WORKPLACE POLICY

Ace Windows NE are passionate about sustaining the environment and therefore organise ways of working ways to minimise environmental damage. This includes minimising the use of non renewable energy and resources.

Ace Windows NE are encouraged to become actively involved in protecting their working environment and the health of the planet and to limit the use of resources such as paper, electricity and plastic in the workplace.

Care should be taken that products used at Ace Windows NE are, wherever possible are environmentally friendly.

Ace Windows NE will recycle all UPVC, plastics, wood and paper waste where possible. Staff are encouraged to re use and recycle as many resources as possible.

Staff are encouraged to minimise paper use through recycling paper in the workplace and using both sides of paper before disposal. Ace Windows NE will, wherever possible, purchase products with high recycle content.

Ace Windows NE will conserve energy through:

- Checking energy ratings before buying new equipment.
- Turning off lights, office equipment when not in use (this also helps reduce green house emissions).
